SLIGHT INCREASE IN REVENUE

Colmar, 26 November 2025 – VOLTZ publishes its revenue for the 2024/2025 financial year.

2024/2025 REVENUE

VOLTZ's consolidated revenue for the 2024/2025 financial year amounted to €137.9 million, compared with €134.4 million for the previous financial year, representing an increase of 2.6%. Excluding the impact of adjustments[1] related to the closing of the accounts on revenue, growth on a like-for-like basis was 1.4%, representing revenue of €136.4 million.

Geographically:
- France accounts for 65% of revenue, with sales up 2.4% to €90 million.
- Europe accounts for 30% of revenue, with sales up 5.3% to €41.8 million.
- The Rest of the World accounts for 5% of revenue, with sales down 9.3% to €6.1 million.

In terms of products:
- Seeds accounted for 35.4% of revenue, up 3.1% to €49.1 million.
- Young plants accounted for 61.7% of revenue, up 2.6% to €85.1 million.
- Supplies and miscellaneous re-invoicing accounted for 2.7% of revenue at €3.7 million, down 2.9%

The consolidated gross margin for the 2024/2025 financial year is expected to be down on the previous financial year.

Hugo Bony, Chief Executive Officer, said: "*The revenue for the financial year confirms the strength of our commercial positions. The decline in our margins is the result of a competitive environment that has not allowed us to fully offset cost increases. Furthermore, the work begun last year on our cost structure has confirmed certain operational gains already seen in the first half of the year. However, the ongoing work to streamline our operations is likely to have a negative impact on the company's accounts again this year*."

[1] The adjustment relates to the allocation of the delivery of young plants (expenses and income) to the last week of the financial year ending on 30/09/2025. This is done in accordance with the principles of allocating income and expenses to the financial year to which they belong, in accordance with the principle of independence of financial years, thus ensuring that the accounts give a true and fair view.
Transactions recorded as at 30/09/2024 did not consider the last week of the financial year as part of the 2024 financial year but were allocated to the 2025 financial year, creating a 53-week financial year for the financial year ending on 30/09/2025.

OUTLOOK FOR THE 2025/2026 FINANCIAL YEAR

Given that the first quarter (October to December), which is still ongoing, represents only a minor part of the business (less than 10%) and that the economic environment remains tense, particularly in its domestic market, VOLTZ remains cautious in its business forecasts and does not wish to comment on a revenue target for the coming financial year.

Next event: 29 January 2026 after the close of trading – Results for the 2024/2025 financial year
