About Graines Voltz

Graines Voltz is one of the leading independent European distributors of seeds and young flower and vegetable plants.

Graines Voltz, a family group headed by its founder Serge Voltz, employs 400 people and has experienced strong growth since its creation in 1985. Its success is based on a very wide range of 33,000 references, unique on the European market in terms of diversity of varieties, intended for professionals in short circuits (market gardeners, horticulturists and communities).

An extremely rigorous organization enables it to identify varieties that meet new consumer expectations at a very early stage, to ensure total quality control and traceability and to deliver its products on a just-in-time basis.

As the leader in France, Graines Voltz, which is driven by the growing demand of consumers in Europe for diversified quality plants from short circuits, has the ambition to export its model there. Germany, the largest market after France, is developing very rapidly.

Graines Voltz is listed on Euronext Paris (mnemonic code: GRVO - FR0000065971). Graines Voltz shares are included in the CAC Small, CAC Mid & Small and CAC All Tradable indices.
