---

### **About Graines Voltz**

*Graines Voltz is one of Europe's leading independent distributors of seeds and young flower and vegetable plants. A family group headed by its founder, Serge Voltz, Graines Voltz has experienced strong growth since its creation in 1985. Its success is based on a very wide range of 33,000 references, unique on the European market in terms of diversity of varieties, aimed at professionals in short circuits (market gardeners, horticulturalists and local authorities).*

*An extremely rigorous organization enables it to identify varieties that meet new consumer expectations at a very early stage, to ensure total quality control and traceability and to deliver its products on a just-in-time basis.*

*As the leader in France, Graines Voltz, which is driven by growing consumer demand in Europe for diversified quality plants from short circuits, has the ambition to export its model there. Germany, the largest market after France, is developing very rapidly.*

*Graines Voltz is listed on Euronext Paris (stock code: GRVO - FR0000065971). Graines Voltz shares are included in the CAC Small, CAC Mid & Small and CAC All Tradable indices.*
